...TOUGH ENOUGH

Excel 2007 - What Is Conditional Formatting??

It's all just numbers...until you can graphically see what the numbers mean:

Apply some basic rules and let the formatting of your spreadsheet look after itself!

Even easier than graphs...

need a camera... that can cope?!

The Fuji BigJob HD-3W is a heavy-duty and highly practical digital camera designed to be used in the most challenging of environments.

Having withstood a drop test to 70cm and featuring a rubber grip and big buttons, this waterproof, dust proof and shockproof camera can endure what other cameras only dream of.

£ 242.00 ex.VAT

The camera also features a 6 Megapixel CCD sensor and ISO sensitivity of up to 1600, so detailed; low noise images can be captured in low light levels, such as dark construction sites, without the need for flash.

However, for times when flash is needed, the powerful built in strobe enables longer flash distance of up to 10 meters.
